### ABOUT ME

I'm a programming enthusiast who loves diving into code during my free time. My passion has led me to work on some exciting projects like QORPO World, QORPO Market, and Citizen Conflict, to name a few. I've also had a blast creating web apps to help my fellow students tackle tricky math, physics, and programming problems.

Learning is my jam, and I'm always eager to pick up new skills. I'm the kind of person who's always striving to grow and improve, and I pour my heart into delivering top-notch results.

### WORK EXPERIENCE

04/2024-PRESENT

#### Angular frontend developer

COEX s.r.o.

📍 Prague, Czech Republic

- collaborated on developing an OSHA app and a book e-shop
- learned how to set up GitHub Actions for CI/CD automation
- implemented and integrated GraphQL for efficient data fetching
- used tailwind CSS for styling

11/2021 - 05/2023

#### Angular frontend developer

QORPO Game Studio

📍 Bratislava, Slovakia

- developed and maintained user-friendly SPAs and landing pages
- connected web interfaces to the REST APIs
- collaborated on creating an Angular component library
- cooperated with the backend and designer teams
- followed design rules to ensure users satisfaction

### EDUCATION

2024-PRESENT

#### Informatics (Master's degree)

Technical University of Košice

📍 Košice, Slovakia

2021-2024

#### Informatics (Bachelor's degree)

Technical University of Košice

📍 Košice, Slovakia

2017-2021

#### Information and network technologies

Secondary Vocational School of Electrotechnical Engineering

📍 Prešov, Slovakia

Node.js	<b>intermediate</b>	Docker	<b>intermediate</b>	Express.js	<b>intermediate</b>
Spring Boot	<b>beginner</b>				

## DRIVING LICENCE

Group B

## HOBBIES

I spend most of my free time expanding my programming knowledge. I treat programming as a hobby, enjoying the process of adding a personal message or part of myself to every project I work on. Learning keeps me motivated, and I'm currently focused on growing my skills across different areas of programming, including frontend development.

Besides coding, I enjoy staying active through cycling, hiking, football, tennis, and badminton. I also value spending quality time with my girlfriend and family. Additionally, I play guitar and sing, always aiming to add a bit of soul to everything I do.
